

ROCK FOR PUBLIC SERVICES *rolls across Ontario*

The year's most exciting anti-privatization campaign is rolling out across Ontario from CUPE Ontario and its locals. **Rock for Public Services** is a series of rock concerts targeted in communities where P3s, contracting out and competitive bidding are seriously threatening public services and CUPE jobs.

Rock for Public Services delivers our messages in an upbeat contemporary manner through a series of rock concerts featuring name rock bands like **Trooper** and **April Wine**.

Just ask the 4,000 residents of West Nipissing who packed Goulard Park on July 21 or the 1,000 residents who came out in Kenora on July 23 to hear rock band Trooper!

The message residents are hearing? **Public services are the bedrock of our communities** so don't let politicians sell them off through privatization, contracting out or restructuring.

Winning public support to fight privatization!
