Local 7800-Environmental Aide,
Hamilton Health Sciences
For Diversity Vice-President
LGBTQ

Sisters and Brothers:

Winds have changed. To the detriment of our union and the fabric of society, governments and corporations are collaborating at every level to attack the hard fought, fundamental rights our parents and their parents secured with dogged determination.

We can surely resist this all-out attack with fact-based training, member to member solidarity and with our creative determination, the likes of which we've not seen for nearly a century.

In solidarity,
Marlon Picken
