HIGH HOLY DAYS.

MONDAY JULY
21ST 7:00 P.M.

GOULARD
PARK

A FREE CONCERT
FROM CUPE

CANADIAN UNION OF PUBLIC EMPLOYEES

Turn on your tap, switch on the lights, drive to work behind the snow plow.

Send your children to public day care, the library, to school or university.

Visit loved ones in the hospital, your local nursing home or supportive housing.

These are just some of the **public services** in your community. Built, paid for and delivered with your hard-earned tax dollars.

When governments privatize or contract out services to private operators for profit, we all lose.

Because privatization—from public-private partnerships to contracting out, competitive bidding and commercialization—costs taxpayers more and delivers less. It puts your tax dollars into corporate profits and cheats people out of the services they need and deserve.

Let's keep public services public; to build and strengthen our communities.
