

SIGN-UP SHEETS TO ATTEND THE CFS DAY-OF-ACTION TO REDUCE USER FEES

The CFS Day-of-Action to reduce user fees is coming up on November 5th, and we are in full support of these goals to make education accessible and stop the continuing corporatization of our campuses.

Privatization and corporatization on our campuses is an ongoing battle which comes in many forms, including corporate sponsorship of university activities such as Welcome Week, exclusive arrangements from cola companies, externally sponsored research and more. These increases in campus privatization threatens jobs, where even now food and cleaning businesses service some campuses - businesses that are concerned first and foremost with increased profit, and not for providing better service for lower prices. We must take a stand against privatization in all its forms, including user fees.

Free transportation to and from the rally will be provided for members, as well as take-home materials. With thousands expected in attendance, we can send a message:

No more privatization of public institutions!

To attend the rally just sign up on the bus list below and further information will be e-mailed to you!
