

Say bye to buy local

How secret trade deals threaten our local economies, jobs and the environment and weaken your community

These free trade deals will stop your local government from choosing to spend your tax dollars in your community. The lowest bidder wins regardless of the impact on local economies.

The federal and provincial governments are selling Canadians the idea that provincial purchasing policies and other rights are barriers to free trade. What's really behind the push for 'inter-provincial trade' deals, the Canada-European Union pact and new NAFTA accord?

Maude Barlow and
Sid Ryan will be in
Ottawa on October 13th

7 - 9 p.m.
St. Joseph's Catholic Church
174 Wilbrod St.
(at Cumberland north
of Laurier)
Ottawa
