

Toronto Service Review - Take Action

Phase 2 Information – One Toronto Organizing Meeting

Dear One Toronto and Commitment 2 Community Friends,

Please help us build our ward teams. We need you to contact your friends and allies in Ward 18 (Councillor Ana Bailao/Davenport) and get them out to this meeting next Wednesday.

The people that we get to this meeting will be signed on to a Ward 18 organizing list that we hope will form the nucleus of a strong force in Davenport that can fight for our City's programs and services.

Please copy the message below into your email and send it to anyone you know connected to Ward 18.

Thanks!!

Jonah

ONE TORONTO & COMMITMENT 2 COMMUNITY Present: A Ward 18 Organizing Meeting

As we speak, Toronto City Council is making plans to balance a huge operating deficit in the 2012 budget. Everything is under review, all city services are on the line, and decisions are being made very quickly about the future of our city and which programs and services will be cut. The impact of these cuts will be felt by all Torontonians for years to come across this city and in your local community.

We know that our city services make Toronto safer, healthier, more equitable, vibrant, and prosperous.

We deserve to live in a great city and we deserve to be heard!

That's why people like you are organizing ward by ward across Toronto to build the communities we want and the city we need and deserve.

Please join us to for an organizing meeting in your local community in Ward 18 and find out:

- * What's at stake in your community and across the city
- * How you can get involved and make your voice heard at City Hall
- * What you can do to organize in your community
