Toronto Service Review - Take Action

Phase 2 Information – Ward 42 Meeting – July 26th

TWCA, ONE TORONTO & COMMITMENT 2 COMMUNITY
Present: A Ward 42 Organizing Meeting

As we speak, Toronto City Council is making plans to balance a huge operating deficit in the 2012 budget. Everything is under review, all city services are on the line, and decisions are being made very quickly about the future of our city and which programs and services will be cut. The impact of these cuts will be felt by all Torontonians for years to come across this city and in your local community.

We know that our city services make Toronto safer, healthier, more equitable, vibrant, and prosperous.

We deserve to live in a great city and we deserve to be heard!

Thats why people like you are organizing ward by ward across Toronto to build the communities we want and the city we need and deserve.

Please join us for an organizing meeting in your local community in Ward 42 and find out:

- Whats at stake in your community and across the city

- How you can get involved and make your voice heard at City Hall

- What you can do to organize in your community

- How you can be part of an exciting city-wide network that will protect Toronto and make it stronger
