COPE 343

Time to Care

Thanks to community action our MPPs heard from thousands of Ontarians and as a result Bill 33 passed second reading at Queen's Park on November 2. **Let's get it over the finish line - ask your MPP to push to get it past third and final reading.**

Ontario long term-care residents receive less care from elss staff than just about anywhere else in Canada.

The majority of long-term care residents are over 85 years old with complex medical conditions, including many with dementia. they need help wwith feeding, bathing, toileting and getting out of bed. Most are not mobile.

Bill 33, the time to Care Act, gives long-term care residents a minimum of 4 hours of hands-on care each day.

Join us in demanding that all Ontario MPPs vote for Bill 33.
