We will also review specific items to ensure that financial practices are in line with Canada Revenue Agency requirements.

4. Strategic Planning (3 hours)

A critical part of everything we do in our union is to have a plan. Without a plan, it can feel like all we do is respond to things that come from our employers or government. With a plan, we can absorb those things that come at us and stay focused on our goals – whatever they are. Key to every strategic plan are the various resources needed to meet the goals people set. This workshop will have members talk about different kinds of strategic planning, who is best involved in planning, how to revisit and evaluate plans, and the critical role that a Treasurer plays in this important part of our work as a union.

5. CUPE National Per Capita Tax & Accessing National Funding (3 hours)

Understand the payment structures to CUPE National and the processes behind remittances of local union dues. Gain an understanding of how the per capita system works, what your money is used for and what other pots of money are available under specific situations.

6. Preparing & Understanding Budgets (3 hours)

With a focus on the CUPE budgeting tool available to locals, this session outlines for participants the steps involved in preparing your Local's annual budget. It includes a sample Budget Excel spreadsheet template and suggestions for the types and amounts of expenses that could be in your budget based on the experiences of other Locals. Further, we will explain how to read, understand and analyze your monthly and annual financial statements including comparing financial results and budget variances. This will provide you with the skills to confidentially present budgets and financial results to your Local's Council.

7. Basic Excel for CUPE National Ledger (3 hours)

This Workshop is targeted to help beginners master the basic skills in using Excel as they relate to the CUPE Ledger. Participants will be given hands-on training of how to format a spreadsheet, set up formulas, navigate through a workbook, print a worksheet.
