

My name is Mohammad Akbar. I was born and raised in Windsor in a low-income household. From a young age I supported labour unions due to a natural affinity for those working to combat income inequality. I am a firm believer in equity and social justice.

Throughout my life I have supported various CUPE Locals in Windsor, Guelph, Waterloo and Toronto. In this role, I would hope to do my best to work on member issues in as many spaces as possible.

I have been a part of the Student Movement for 4 years working across the province and nationally on a variety of issues, and served on numerous boards, including the AIDS Committee of Windsor and METRAC, an organization dedicated to fighting violence against all women, and youth. I have led the way for policy updates, protests, rallies and other initiatives, including service development.
