- 2 terms as OD Executive

Dave Smith

Dave believes that unless we fight as if there is no tomorrow over the next few years many jobs within CUPE will be lost. If the Conservatives get into power, 10,000 jobs will be cut in the education sector alone, with attacks on our pension plan to the point of making it inferior to what it is today. Many members who do not have a plan would lose all hope of winning one in the future, like jobs currently held by women, youth, and people of colour. A Conservative Government would put in place policies that would dramatically push down wages and benefits.
