CUPE Ontario is seeking a Temporary Full Time Technology Assistant

If you are a critical thinker and self starter who works well as part of a team, loves projects, has experience in the trade union movement, possess exceptional communications skills and works well in an anti-racist and anti-oppression framework, then this opportunity is for you. CUPE Ontario is seeking a temporary full time Technology Assistant.

Internal / External Applicants are invited to apply for the position by June 20, 2018 at 4:00pm (EST).

CUPE Ontario's mission is to advance the lives of over 260,000 members all across Ontario, both at work and in their communities, by mounting campaigns for political mobilization, facilitating the coordination of collective bargaining, and fighting for social justice, equality, and against all forms of discrimination.

As Ontario's largest public sector union, we have a deep commitment to strengthen and continue to build public services for the citizens of our province, and we see the fight against privatization as integral to all that we do. We work strongly in coalition with community groups and other unions to achieve our goals. As the political wing of Canada's largest union, political action and equity work are central to all aspects of our action plan which is developed and passed each year directly by the membership of our union.

CUPE Ontario is in the process of exciting growth and development and we are looking for individuals with the skills, abilities and stamina to support our political campaigns. CUPE Ontario is committed to building a strong and diverse organization that is reflective of our members and society at large.

This position will work collaboratively with the CUPE Ontario Technology Specialist. The technology assistant provides assistance, information and support to all CUPE Ontario staff. They solve and provide IT related problems and services, record and solve technology issues, install software and tools, manage general administrative issues, and provide a wide range of direct IT services.

He/she acts as a first contact point when it comes to internal technology related requests. The Technology Assistant assists with the maintenance of existing computer systems and with the installation and implementation of new technologies.
