

WE PAY! WE WANT A SAY!

Coworker Talking Points

Topic	What to say
What's Happening?	"Last year, the Ford Conservatives passed Bill 68, which gave the Minister of Municipal Affairs and Housing new regulatory powers over OMERS.
Who will this effect?	More than 640,000 OMERS members and their families - including yours!
What changed?	Bill 68 inserted the provincial government back into OMERS. Not only is this a conflict of interest, it is the ONLY joint pension plan in Canada to be treated this way.
Does this really matter?	YES! Every dollar we contribute to OMERS are our deferred wages. It's our money. We deserve transparency and input into decisions that affect our pensions.
What does CUPE want?	We want the government out of our pension! Let the Sponsors Council decide how OMERS is run without government interference.
How can we help?	Add your voice through the campaign petition/e-action. Contact your local MPP/Minister. Share information with coworkers.
