

To the hard working CUPE bus team,

I just wanted to say thank-you for all of your continued support for the NDP in Peterborough. The Dave Nickle campaign team has had a surge of energy after the CUPE bus stop. The bus was a central portion of our day.

Yesterday was busy. Howard Hampton stopped by briefly to continue his platform release on working families. His media bus and entourage added intensity to the day.

Olivia Chow came to discuss child care issues at the Kawartha Child Care Center. In the evening we had a fundraising dinner. Olivia was successful in raising a substantial amount of money to contribute to Dave's campaign.

The CUPE bus was the key that bound the day together. Your driver Tony was very informative, enthusiastic and helpful in distributing literature and talking with people.

I can only hope that with your help other ridings will have as much success in their campaigns. We feel like we have a chance to win this seat.

Once again thank-you,

Christine Jaros
