

The Council of Canadians and CUPE Ontario present:

Kick the bottle. Tap into public drinking water.

The bottled water industry has worked hard to undermine our faith in public water. The industry sells water — a shared public resource — for huge profits. It's time to get the facts, kick the bottle and tap into clean, safe public drinking water. Come out and learn how to take action in your community!

Windsor **Monday, January 12**
London **Tuesday, January 13**
Guelph **Wednesday, January 14**
Hamilton **Thursday, January 15**
