

MUNICIPAL SERVICES

BUILD BETTER NEIGHBOURHOODS

WE ARE

More than 50,000 Municipal workers in every community across Ontario.

We keep the streets clean, the lights on and the water safe. We look after your children, your parents and are there for you in emergencies.

WE ARE WORKING IN:

- City Hall
- Community Centres
- Libraries
- Municipal Child Care Centres
- Municipal Long Term Care Homes
- Municipal Utilities
- Paramedical and Emergency Services
- Parks and Recreation
- Water Treatment Plants
- Solid Waste and Garbage
- Transportation

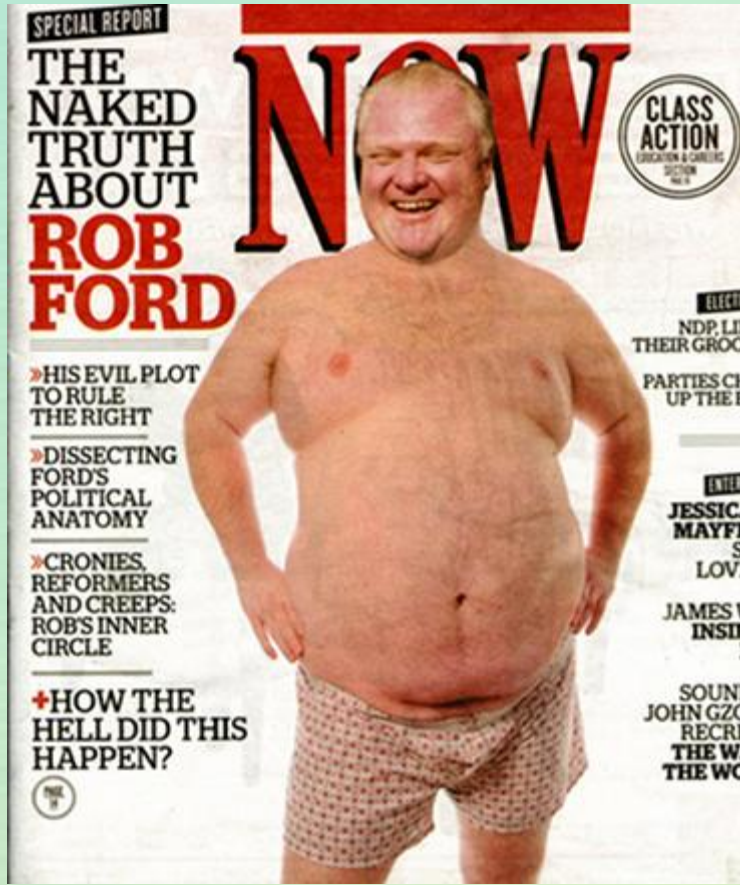

WE ARE CAMPAIGNING

“Mobilizing Together Toward 2014”

Our 4 year campaign will:

- Build our Locals’ capacity to lobby politicians
- Hold politicians accountable during their term
- Ensure in 2014 we elect politicians who value the public services our members deliver and our communities deserve

WE ARE FIGHTING PRIVATIZING MAYORS IN

PETERBOROUGH

AND TORONTO

SUDBURY

WE HAVE

- Worked across Ontario on last year's Municipal Elections
- Held our best ever attended OMECC conference in March
- Launched our “Lobbying Handbook”, providing training on how to lobby local politician effectively

WE ARE FIGHTING

- For decent wages, benefits and job security as employers demand concessions
- P3 proposals
- Threats of contracting out and privatization
- The selling off of Municipal assets
- Attacks on our basic labour rights

WE HAVE

- Continued to negotiate agreements with decent compensation increases
- Lobbied politicians to protect public services and jobs
- Been working in coalition, with our communities more than ever before

WE ARE WORKING IN

Sudbury

Local 4705 is mounting an effective public and lobbying campaign to fight the building of a P3 bio-solids waste plan

Peterborough

CUPE Locals are working in coalition with other unions, lobbying councilors to stop contracting out plans by the Mayor

WE ARE WORKING IN

Toronto

Where the Mayor is threatening to contract out “anything that is not nailed down”, deliberately created a \$780M deficit for 2012

Where Local 416 has worked hard with other CUPE Locals and allies to stop the contracting out of solid waste, recently succeeding in slowing down the Mayor’s push to privatize.

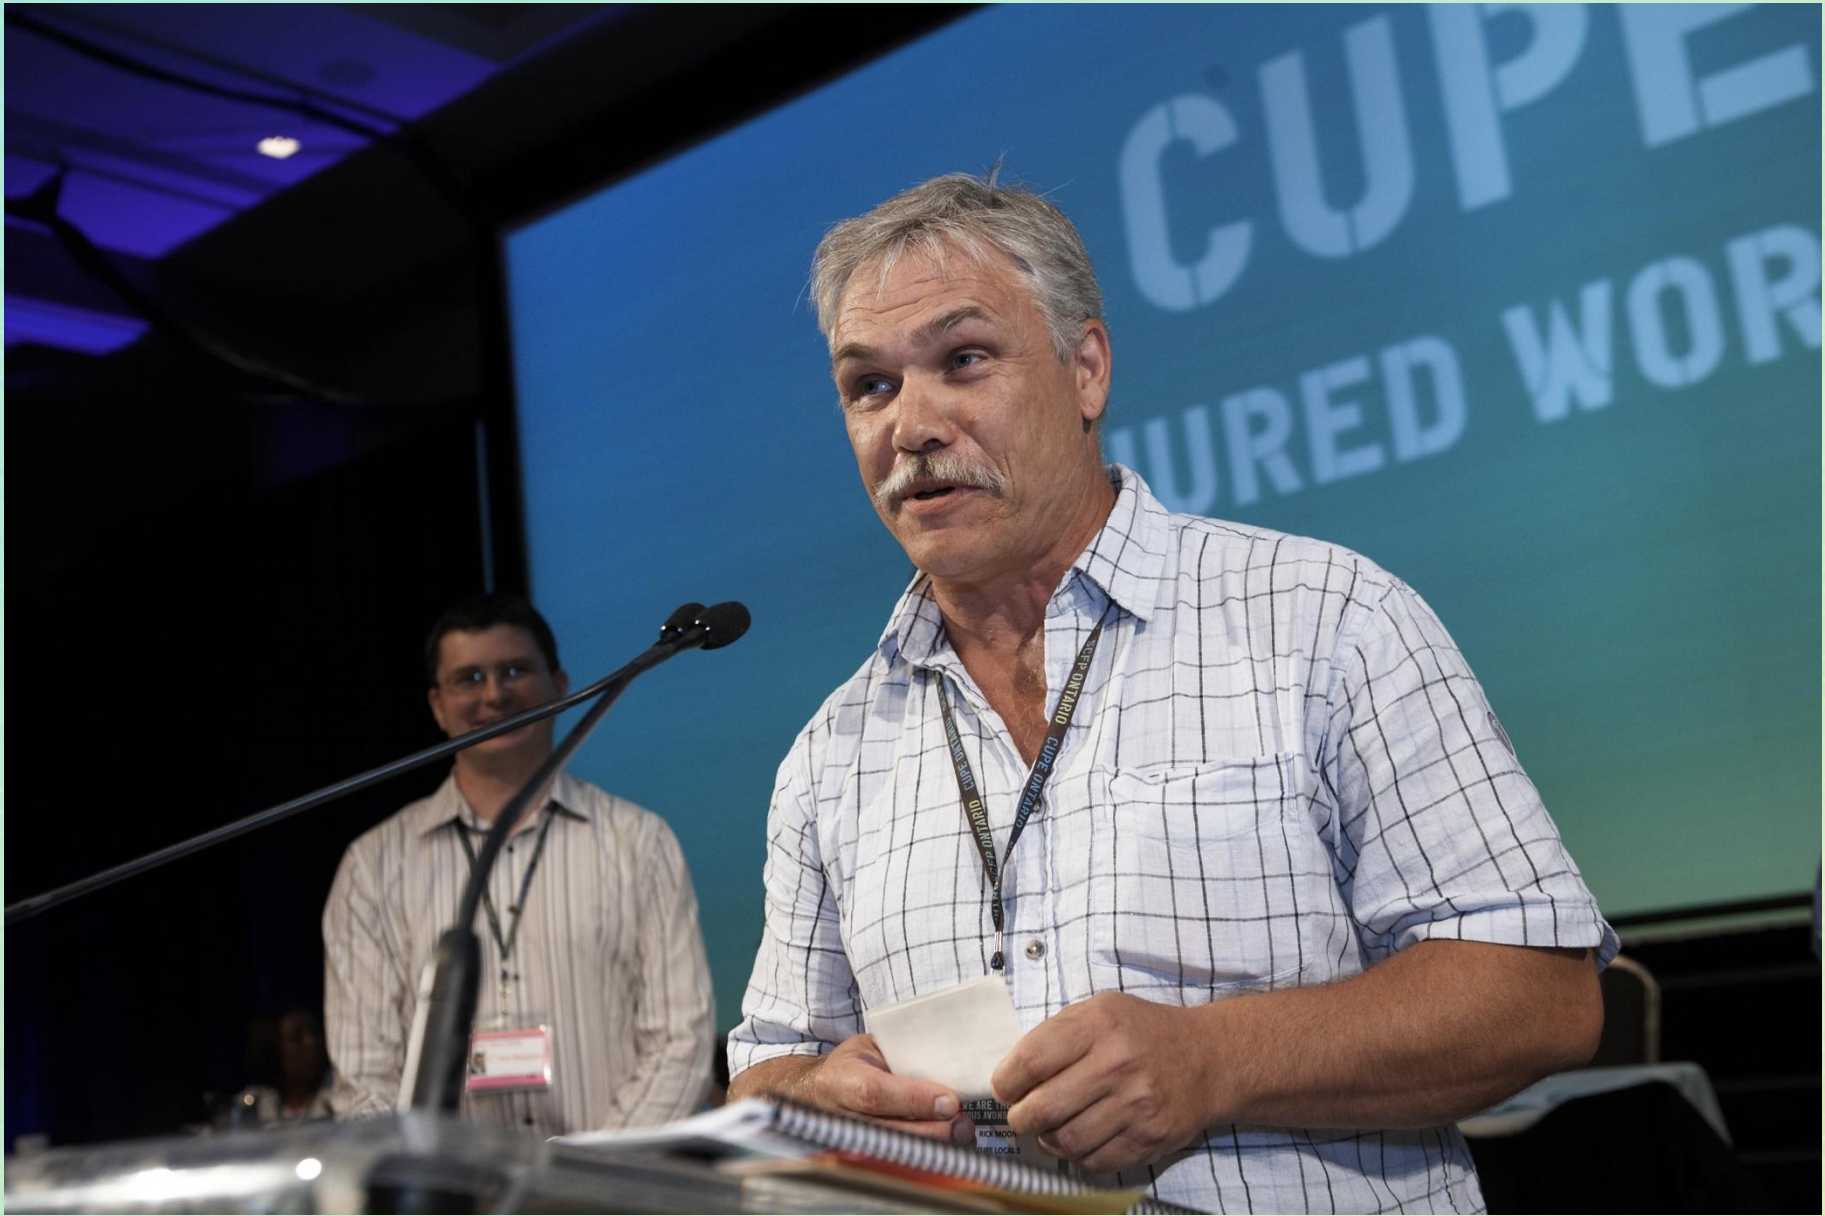

WE WILL

Work together with the Social Service Sector to fight the “Core Services Review in Toronto which threatens:

- All city-run public services, including Libraries
- Publically owned assets like Toronto Hydro and the Toronto Parking Authority
- Community Agencies that receive any municipal funding

WE WILL

- Continue to work with the School Board and Social Service Sectors to ensure the full funding and implementation of the Early Learning Program (ELP)
- Demand the provincial government provide stabilization funding for community, not-for profit and municipal child care to adjust to ELP

WE WILL

Have meetings in each OMECC area to:

- Do further training on the Lobby Handbook
- Discuss possibilities for bargaining coordination within the sector
- Provide Locals with the best language to protect our services and mount an effective campaign for municipal elections in 2014
