

TOGETHER, EVERYTHING IS POSSIBLE

OSBCC Mobilization Update 2012

Issue 1

Your Bargaining Support Committee is gearing up for a challenging round of negotiations. In anticipation of the busy year ahead, the OSBCC Bargaining Support Committee recently met to discuss their role in the bargaining process.

Assisting the Bargaining Committee is a very important responsibility and we are pleased to have such a strong group of individuals working on this crucial task.

In keeping with the Bargaining Support Committee structure and bylaws, each local should elect one representative per bargaining unit to their area council to work with the Bargaining Support Committee member that represents that area. We strongly suggest that locals appoint or elect someone to take on that role at the next membership meeting – it would be a good idea to have someone in place by the start of the OSBCC conference.

As we understand that the structure of the OSBCC and its sub-committees is new to us all, we have included with this bulletin a chart to help you understand how it works. As a resource, we have also attached a list of committee representatives and their alternate by area to ease communication should you need to get in touch with them. Do not hesitate to contact your area representative or alternate with any questions your local may have about the work we are doing together to support our Bargaining Committee.

Meet your 2012 Bargaining Support Committee:
