National Day of Action September 15, 2012

The Conservative Party's austerity measures are bringing new cuts to essential Public Services every day – cuts that affect the safety of the food we eat, the water we drink; cuts that affect the services that Canadians count on – Employment Insurance, Social Security, Health Care, Education. The list goes on....and on...

Join the Public Service Alliance of Canada and their Labour and Community allies to send a message to Stephen Harper that we will not sit back quietly while he destroys the Canada that we love!
